- Intermediate in Computer Science-2022
- Matric in Computer Science-2022

SOFT SKILLS

- Expressive Communication
- Great Leadership skills

ABOUT MYSELF

I'm a JavaScript and React based Front-End-Developer. I have been working as a React Developer for the past one year and have gained a lot of experience in the field. I am well-versed in all aspects of React development, from setting up the environment to creating components to using React with Redux. I bring a comprehensive set of skills that I believe will be valuable to companies. In my Front-End developer role, I honed my abilities in UI updates and debugging for the Front End Developer position. My teamwork, people-centric nature, and compassion have afforded me excellent organization skills.
